SUMMARY

Front-End Web Developer with a background in Psychology/Neuroscience/Global Health/Film and life-long passion for learning. Effectively combines creativity, problem solving, and an international perspective to develop user-friendly, culturally conscious, applications. Known among peers as a strong leader with enthusiasm, a quick wit, and attention to detail, able to tackle any level of complexity of the project.

TECHNICAL SKILLS

Languages: Javascript, SQL

Applications: MERN

PROJECTS

MoodTracker | <https://github.com/sgidan/Mood-Tracker> | <https://quiet-waters-15889.herokuapp.com/>

- Created a RESTful MERN web app that allows users to track their mental health over time. Individual data is collected based on a daily mood quiz that is graphed longitudinally. Users are also encouraged to practice gratitude through a journaling section.
- Built entire website with one other coder. Focused on overall conception, modeling, and back-end development but worked on all aspects of code.
- JavaScript, MySQL, REACT, Bootstrap

AdventureGenerator | <https://github.com/savannahz123/class-project-1> | <https://savannahz123.github.io/class-project-1/>

- Web app intended to be used to suggest a de-stressing activity. Based off of user's energy level, depression level, location, and time available, it suggests possible fun activities.
- Creative director, Project manager, Front-end developer
- HTML/CSS, Javascript

Math Game | <https://github.com/SheenaMB/Unit-4-Game> | <https://sheenamb.github.io/Unit-4-Game/>

- Game web app where the goal is to hit the randomly generated number by clicking on the crystals, each with their own random value, which then add to your number. Hit the desired number to win and increase your score.
- Full-stack/Back-end developer
- Javascript

EXPERIENCE

Volunteer

July 2019

Disability Sibling Support Project

Los Angeles, CA

Reimagined and updated entire website as overall project manager and primary front-end coder. Intuitively delegated tasks according to skill level to streamline project.

Key Accomplishments:

- Founded *Empowerhouse, LLC*. a media and community building company that strives to tell authentic stories of the diverse human experience, particularly focused on accurate representation of mental health especially in the LGBTQ, Asian American, and disability communities.
- Created/produced/directed entire mental health web series (managing over 30 key crew involved), to ignite conversation, combat stigma, and encourage human connection.

EDUCATION

Bootcamp Certificate: UCLA, Los Angeles, CA

A 12-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

B.S. Neuroscience, Summa Cum Laude: Tufts University, Boston, MA
